

§ 989.55

the estimated costs incurred by the Committee for equity holders.

(h) *Publicity.* The Committee shall promptly give reasonable publicity to producers, dehydrators, handlers, and the cooperative bargaining association(s) of each meeting to consider a marketing policy or any modification thereof, and each such meeting shall be open to them. Similar publicity shall be given to producers, dehydrators, handlers, and the cooperative bargaining association(s) of each marketing policy report or modification thereof, filed with the Secretary and of the Secretary's action thereon. Copies of all marketing policy reports shall be maintained in the office of the Committee, where they shall be made available for examination by any producer, dehydrator, handler, or cooperative bargaining association representative. The Committee shall notify handlers, dehydrators and the cooperative bargaining association(s), and give reasonable publicity to producers of its computation of the trade demand, preliminary percentages, and interim percentages and shall notify handlers, dehydrators, and the cooperative bargaining association(s) of the Secretary's action on percentages by registered or certified mail.

[48 FR 32976, July 20, 1983, as amended at 50 FR 1831, Jan. 14, 1985; 54 FR 24670, June 9, 1989]

EFFECTIVE DATE NOTES: 1. At 54 FR 24670, June 9, 1989, in § 989.54, in paragraph (a), the sentences, "The desirable carryout shall be increased from 45,000 to 60,000 tons for Natural (sun-dried) Seedless raisins at a rate of 5,000 tons per year for the three crop years following the effective date of this amended subpart. The desirable carryout for Dipped Seedless raisins shall be 1,500 tons, and for Oleate and Related Seedless raisins 1,500 tons." were suspended indefinitely, effective July 10, 1989.

2. At 62 FR 50484, Sept. 26, 1997, in paragraph (g), the words "On or before November 15 of the crop year" and "simultaneous" in the first sentence were suspended indefinitely, effective Sept. 29, 1997.

§ 989.55 Regulation by the Secretary.

Whenever the Secretary finds, from the recommendation and supporting information supplied by the Committee or from other available information, that to designate final free and reserve

7 CFR Ch. IX (1-1-11 Edition)

percentages for any varietal type of standard raisins acquired by handlers, during the crop year will tend to effectuate the declared policy of the Act, the Secretary shall designate such percentages. In the event the Secretary finds that suspension or termination of any percentages computed by the Committee or designated by the Secretary tend to effectuate the declared policy of the Act, the Secretary shall suspend or terminate such percentages.

[48 FR 32977, July 20, 1983]

§ 989.56 Raisin diversion program.

(a) *Announcement of program.* On or before November 30 of each crop year, the committee shall hold a meeting to review production data, supply data, demand data, including anticipated demand to all potential market outlets, desirable carryout inventory, and other matters relating to the quantity of raisins of all varietal types. When the committee determines that raisins exist in the reserve pool in excess of projected market needs for any varietal type, it may announce the amount of such tonnage eligible for diversion during the subsequent crop year. At the same time, the committee shall determine and announce to producers, handlers, and the cooperative bargaining association(s) the allowable harvest cost to be applicable to such diversion tonnage. A production cap of 2.75 tons of raisins per acre shall be established for any production unit approved for participation in a diversion program. The committee, with the approval of the Secretary, may recommend, at the same time that the diversion tonnage for that season is announced, a change in the production cap for that season's diversion program of less than 2.75 tons per acre for any production unit approved for the diversion program.

(b) *Voluntary diversion.* No producer shall be required to participate in any raisin diversion program.

(c) *Issuance of diversion certificates.* After the committee announces a raisin diversion program, any producer may divert grapes of the producer's own production and receive from the committee a diversion certificate in accordance with the applicable rules and regulations. Such certificates may

only be submitted by producers to handlers in accordance with applicable rules and regulations. Diversion certificates issued by the committee shall apply to a specific production unit and shall be equal to the creditable fruit weight, not to exceed the production cap established pursuant to paragraph (a) of this section, of such raisins produced on such unit during the prior crop year or the last prior crop year eligible for such diversion: *Provided*, That in the case of a production unit, or partial production unit, removed from production through vine removal or other means established by the committee, the committee may issue a diversion certificate in an amount greater than the creditable fruit weight of the raisins produced therein or the production cap applicable.

(d) *Redemption of diversion certificates.* Handlers may redeem diversion certificates for reserve pool raisins. To redeem a certificate, a handler must present the diversion certificate to the Committee and pay the Committee an amount equal to the harvest cost it has established, plus an amount equal to the payment for receiving, storing, fumigating, handling, and inspecting reserve tonnage raisins specified in § 989.401 for the entire tonnage represented on the certificate. Upon receipt of the diversion certificate, the Committee shall note on the certificate that it is cancelled.

(e) *Implementation of the program.* The Committee shall establish, with the approval of the Secretary, such rules and regulations as may be necessary for the implementation and operation of a raisin diversion program.

[50 FR 1831, Jan. 14, 1985, as amended at 50 FR 40477, Oct. 4, 1985; 54 FR 34137, Aug. 18, 1989]

GRADE AND CONDITION STANDARDS

§ 989.58 Natural condition raisins.

(a) *Regulation.* No handler shall acquire or receive natural condition raisins which fail to meet such minimum grade and condition standards as the committee may establish, with the approval of the Secretary, in applicable rules and regulations: *Provided*, That a handler may receive raisins for inspection, may receive off-grade raisins for

reconditioning and may receive or acquire off-grade raisins for use in eligible non-normal outlets: *And provided further*, That a handler may acquire natural condition raisins which exceed the tolerance established for maturity under a weight dockage system established pursuant to rules and regulations recommended by the committee and approved by the Secretary. Nothing contained in this paragraph shall apply to the acquisition or receipt of natural condition raisins of a particular varietal type for which minimum grade and condition standards are not applicable or then in effect pursuant to this part.

(b) *Changes in minimum grade and condition standards for natural condition raisins.* The committee may recommend to the Secretary changes in the minimum grade and condition standards for natural condition raisins of any varietal type and may recommend to the Secretary that minimum grade and condition standards for any varietal type be added to or deleted. The committee shall submit with its recommendation all data and information upon which it acted in making its recommendation, and such other information as the Secretary may request. The Secretary shall approve any such change if he finds, upon the basis of data submitted to him by the committee or from other pertinent information available to him, that to do so would tend to effectuate the declared policy of the act.

(c) *Publicity and notice.* The committee shall give prompt and reasonable publicity to producer, dehydrators, and handlers of each recommendation submitted by it to the Secretary and of each regulation issued by the Secretary. Notice of such regulation shall be given to all handlers by registered or certified mail.

(d) *Inspection and certification.* (1) Each handler shall cause an inspection and certification to be made of all natural condition raisins acquired or received by him, except with respect to: (i) An interplant or interhandler transfer of offgrade raisins as described in paragraph (e)(2) of this section, unless such inspection and certification are required by rules and procedures made
